Dear Mr. Suhara:

Thank you for your September 25 facsimile letter forwarding the above-identified new U.S. Patent Application for filing in the U.S. Patent and Trademark Office. We today filed the application papers including 8 sheets of drawings and Information Disclosure Statement in the U.S. Patent and Trademark Office.

Enclosed for your records are copies of the Application Transmittal and Information Disclosure Statement together with our debit note.

Because this application was filed without an original Declaration and Power of Attorney, the Patent Office will issue a Notice to File Missing Parts. This notice will set a due date for filing the Declaration and Power of Attorney, which could be as early as two months from the application filing date. We will advise you of the due date for filing the Declaration and Power of Attorney once we receive the Notice to File Missing Parts. In the interim, please forward the executed Declaration and Power of Attorney at your earliest convenience, and preferably by November 25, 2003.*

* Be certain to check one of the first two boxes on the form as appropriate. If the first box is checked, a copy of the application must be attached. The easier approach is to check the second box and to identify the application by serial number and/or filing date. It is not necessary to include the serial number on the Declaration if the filing date is identified, but we will in any event forward the serial number to you as soon as it is available to us.

In accordance with Patent Office Rule 56, all information "material to patentability" must be disclosed to the Patent and Trademark Office. Such information includes prior art patents and publications, copending U.S. patent applications directed to related technical subject matter, and public uses, offers for sale or sales in the U.S. more than one year before the U.S. filing date. To minimize expense, such information should be disclosed within three months after the U.S. filing date or before the mailing date of the first Office Action on the merits, whichever is later. We recommend filing such information no later than December 25, 2003.

The Information Disclosure Statement addressed the references forwarded with your September 25 letter. Please (1) advise us of any other such material information of which you are aware; (2) send us copies or complete identification of it (including date of publication); (3) provide us with any available English language translation of each non-English language document; (4) provide us with an English language version of any relevant foreign search report; and (5) provide us with a concise explanation of the relevance of each untranslated non-English language document not included in the search report.

If you have any questions or comments, please do not hesitate to contact us.

Very truly yours,

James A. Oliff
